### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the primary reason for allowance is the inclusion of a sealed air cushion inside a pneumatic down-the-hole drill that is formed by a hammer end of a piston, the drill bit, and a drill bit bushing. In order to effectively seal the air cushion, a portion of the hammer end of the piston having an outermost diameter is located inside the drill bit bushing.
2. Regarding the prior art, particularly Wolfer (5,566,771), an air chamber is formed in a pneumatic down-the-hole drill by a hammer end of the piston, the drill bit, and a drill bushing. However, the outermost diameter of the hammer end of the piston is never located inside the drill bit bushing. Instead, the upper edge of the drill bit bushing forms a stop for the piston. In other words, the piston can not reciprocate inside the drill bit bushing.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LINDSAY M. LOW whose telephone number is (571)272-1196. The examiner can normally be reached on Monday thru Friday 7:30 to 5:00.
